NO. 13

## SAC Summer School Starts On June 2nd

Summer school registration will begin June 2 and classes will start June 3. One nine-weeks term will be offered instead of the regular two six-weeks terms.

A two day holiday will be given July 4 and 5. Final exams are scheduled Aug. 1.

Students may complete a maximum of 10 hours in the nine-week session. This one-half semester plan is a trial and the results will be carefully checked to see if the same plan will be used the following summer.

The dean's office will make a survey of the courses desired by the present students within the next two weeks. After the survey has been checked, the summer scheduled will be printed. Any student in any class will be assured a full offering of required and elective subjects.

## Mr. Bare Honored At TJCTA Meet

The fifth annual convention of the Texas Junior College Teachers Association was held in the Gunter Hotel, San Antonio, March 6, 7, and 8.

Mr. Leslie T. Bare, SAC science teacher, was honored as one of the five past presidents; Mr. Ralph Master was chairman for the auditing committee, vice-chairman for business education, and past treasurer of the association; Mr. "Bill" Ardis was moderator for the speech department; Mr. Paul V. Peck gave a panel discussion on Junior College Theory; Dr. Wildenthal and Mr. Fraser were also in attendance.

The Texas Junior College Teacher Association delegates were officially supporting three educational issues.

At a business meeting on March 7, the members voted for enactment of teacher retirement laws, and legislation for adequate support of junior colleges as institutions of higher education.

They also asked for state legislation putting teacher selection in junior schools on the same basis as in state-supported 4-year colleges.

Sixteen sectional meetings including administration, vocational education, language, education and psychology, were being held Saturday, March 8, closing day for the fifth annual convention.

At a banquet meeting Friday, March 7, Dr. Doak S. Campbell, Florida State University president, declared junior colleges need improvement in instruction.

The chief function of a junior college is instruction "at the critical period" following the conclusion of the high school curriculum, according to Campbell. He continued:

"The greatest challenge to the junior college lies in developing instruction of such superior quality and effectiveness its distinctive quality might be readily observed in the superior quality of its product."

In a business session new officers were elected with Joe F. Taylor, Amarillo, chosen to succeed Mrs. Carl Wallace, Tyler, as president. Other officers include Misses Phyllis Phillips and Adah Louise Staph, vice presidents; Robert Clinton, secretary, and Miss Elaine Conlee, treasurer.

Suzie Jameson, state historian of American Home Economics Association, attended a state officers' meeting in Austin March 8-9 to plan the Spring Work Shop. She came back by Belton and visited Mary-Hardin Baylor.

## SAC TAX PAYMENTS NOW 96 PER CENT

Taxpayers who meet their obligations to the San Angelo College county-wide district provide a rosy glow for the trustees. And they responded with appreciation as they surveyed tax returns this week, indicating tax payments aggregating 96 per cent for the year.

This embraces \$60,589 from ad valorem levies for the general fund and \$38,101.16 toward bond retirement.

That's a right good record for a dry year, they agreed.

### Bills Approved

Trustees approved bills amount-

## One Act Play Leaves For San Antonio

Drama instructor, Bill Ardis, and the cast of "Mooncalf Mugford" will travel to San Antonio Thursday to take part in the Texas junior college one-act play contest. San Antonio College is the host school at this year's contest. The San Angelo contingent will arrive in San Antonio in time to rehearse at the college auditorium at two o'clock Thursday afternoon. The contest proper will begin Friday morning and last thru Saturday with the winning plays giving a second performance Saturday night.

The cast of "Mooncalf Mugford" includes Bobbye Perry, Willie Reader, Mary Byrd, Katherine Hays, and Jack Castello.

### SAC Girl Becomes First Member Of Women's Reserve

"Little Sonja went and done it." Sonja Brashears was sworn into the Organized Naval Reserve Tuesday night, March 11. She is the first woman to become a member of the ROC in the San Angelo district. Lt. Cmdr. H. D. Howard, commander of the local reserve post, was in charge of the ceremony.

A six weeks training course to Bainbridge, Md., will be taken by Sonja this summer. Upon completion of her college work, she will become a commissioned ensign in the reserve WAVES.

## Dr. Wildenthal Attends Meeting In San Antonio

On March 6-7 in San Antonio Dr. Wildenthal served with 7 other college presidents on a Committee of Standards and Criteria for Courses and Personnel of Junior Colleges.

He also attended the annual meeting of the Texas Junior College Teachers Association, March 7-8.

The recommendations of this committee will be submitted to the Texas Education Agency. Matters concerning collegiate affairs to be recommended are as follows: standard academic courses which will justify state per capita apportionment, preparation of junior college teachers, and adequacy of plant and equipment.

### SAC CAMPUS BOASTS TWO SONG WRITERS

Some people can brag they have known Gershwin or Cole Porter, but we have on our very own campus two such song writers to back and be proud of. We hear tell around this campus that some of the lyrics to these writings are just positively "dreamy" and the music is really "sumpin." If you haven't heard them as yet, then get in touch with Bob Cole and Willie Reader and I'm sure they will give you a pretty good audition. Good luck fellows, We sure hope you get these melodies on the "Hit Parade."

ing to \$67,449.14.

These included \$4,981.20 for groceries and salaries at the cafeteria. Dr. Bryan Wildenthal, president, confirmed today that operation of the cafeteria approximates \$50,000 a year. The administration hopes to break even on this operation and to provide the best food available for the student body, he said.

Balance in all funds as of Feb. 29 was \$64,098.28 as compared to \$82,684.91 a month earlier.

Trustees earlier in the school year had estimated income of \$292,304. The unrealized balance at this time is \$111,742.49. The entire amount of \$10,000 estimated from the Veterans Administration is in that unrealized balance. Trustees indicated the delay in payment creates a pinch that hurts.

### SHAMROCK DANCE HELD FRIDAY IN RAM ROOM

The Science Club had a Shamrock Dance in the Ram Room Friday evening. The dance was a climax to the recruiting drive put on the Science group.

Since the girls had more new members accounted for on their side, the boys had charge of all arrangements for the dance. James Scott, C. C. Clark, and Bill Plummer had charge of arrangements.

Green and white was the decor scheme, punch and cookies, the bill of refreshment. Those scientists really go but made when they sponsor a party.

### POOR ATTENDANCE AT SAC ASSEMBLY PROGRAMS

Student attendance at the assembly programs is constantly getting smaller with each program. We must all attend these programs. After all, they are for our benefit and enjoyment.

Many colleges make their students attend assembly. If voluntary attendance cannot be maintained, we will be required to attend.

### DR. WILDENTHAL SPEAKS

Dr. Wildenthal has recently made a number of talks to different West Texas groups.

March 2, he gave a lay talk to the Methodist church at Mason.

March 6, he spoke at an assembly at Junction High School.

March 9, he gave a lay talk to the Methodist church at Ozona.

And on March 12, he spoke at the Paint Rock study club.

## Phi Theta Kappas Initiate 27 New Members Monday Night

The formal initiation of the Phi Theta Kappa was held Monday evening, March 10, in the Ram Room. The membership of the Phi Theta Kappa consists of the upper ten percent of the entire student body. The new members listed according to scholastic ratings are as follows:

Henderson, Douglas; Baker, Wayne; Beck, Ray Hall; Dierschke, Delores; Bufkin, Phyllis; Strebeck, George; Weaver, Lee; Griffin, Lynn; Ray Myrna Loy; Baker, Douglas; Booth, Patty; Mills, Josephine; Palmer, Martha; White, Eleanor; Cox, Jimmy; Franek, Elizabeth; Kirkpatrick, Tommy; Szalwinski, Mary Frances; Taylor, Billy; Curry, Don; Grisham, Robert; Hurn, William; Matthews, Joyce; Baker, Donald; Williams, Elaine; Taylor, Helene; Ray, Bobbie (late initiate from last semester).

This list represents a group high scholastically. They are of good moral character and are rated as good citizens. This number, including the number of active Phi Theta Kappa members now in school, will be slightly less than ten per cent of the student body last semester.

### Senior Counseling Program Continues For West Texas

Eight SAC teachers are taking part in a counseling program for West Texas high school seniors. They are George, Barnes, Able, Robinson, Dooley, Bludworth, Peck, Carter, and Westerman.

Mr. Barnes gives the Kuder preference tests to the seniors, and the other instructors follow up the test with additional counseling. The counseling program has proved to be very valuable publicity for SAC during the 5 years of its existence, as well as profitable to seniors.

Two schools already covered this year that had not been covered before are McCamey and Midland. Other schools visited already include Christoval, Eldorado, Sonora, Ozona, Iraan, McCamey, Rankin, Barnhart, Big Lake, Mertzon, Water Valley, Sterling City, Garden City, Bronte, Robert Lee, Miles, Eola, Paint Rock, and Millersview.

New schools to be visited in the future include Richland Springs, San Saba, Goldwaite, Santa Anna, Snyder, Colorado City, Monahans, Crane, and Grandfalls. Other schools to be visited in the future include Eden, Melvin, Brady, Mason, Junction, Menard, Rochelle, Winters, Ballinger, and Lake View.

The initiation was conducted by president, Frank Strickland, vice-president, Ivadell Vinson, and corresponding secretary, Donn Rice. The Phi Theta Kappa song was sung by Helene Taylor, Myrna Loy, Ray, Shirley Snider, and Joan Park. Dr. Wildenthal gave the address of the evening. The first honorary membership ever bestowed by Beta Chapter was given to Dr. Ida Vernon, former sponsor and faculty member of San Angelo College. Mrs. Rosa Bludworth is the faculty sponsor.

Refreshments were served to members and a large group of parents and friends. Approximately one hundred were present.

## Jesse Bogue Praises SAC During Visit

"The nation's two-year colleges are fast abandoning the familiar prefix JUNIOR, because that title doesn't do justice to the role such colleges play in their communities today."

That was the statement of Dr. Jesse P. Bogue from Washington, D. C., executive secretary of the American Association of Junior Colleges, who was at San Angelo College Wednesday, March 5, on an advisory visit.

"The biggest problem we face today," said Dr. Bogue, "is to get a public understanding of what a community college is." He added that small colleges are so entwined in community life, they do a broader and more democratic community job in education than even the four-year universities.

Concerning San Angelo College, Bogue said that it "has an exceptionally attractive plant... one of the nicest in Texas." Dr. Bogue said he had been told "by all means see the plant at San Angelo," during his current tour.

He left here by plane late Wednesday for San Antonio and consultation at San Antonio College Thursday morning. Friday morning, March 7, he addressed the annual convention of Texas Junior College Association, which is the only state association in the United States.

Junior college enrollment in Texas is about 50,000. Dr. Bogue said enrollment for the small colleges would be boosted by the enactment of a bill now before Congress which would assign Reserve Officer Training Corps units to junior colleges.

PHI THETA KAPPAS SEEM HAPPY after their initiation last week. New members are the following: Bottom row: Mary Frances Szalwinski, Elizabeth Franek, Patty Booth, Elaine Williams, Helene Taylor, Bobbie Ray, Martha Dean Pater, and Josephine Mills. Second row: Donald Baker, Eleanor White, Dolores Dierschke, Myrna Loy Ray, Billy Taylor, and Tommy Kirkpatrick. Third row: Robert Grisham, Jimmy Cox, Don Curry, Wayne Baker, Douglas Baker, and Bill Hurn. Top row: Ray Hall Beck, Lynn Griffin, Lee Weaver, and George Strebeck. Three not present were Joyce Matthews, Phyllis Bufkin, and Douglas Henderson.

## WHAT THE WORD RED MEANS TO ME

By Tommy Kirkpatrick

A Red is a person who believes in the communistic form of government. He may live in Russia or, perhaps, next door. He may be heavyset or light, tall or short, drab or comely; but nevertheless, there is set in his brain a burning desire to establish a classless society and a world union of Socialist Soviet Republics.

The Red has an ardent desire to make his form of government become a reality. We, as individuals of a democratic form of government, often lie down on our job of keeping our government free. We tend to let the next person do our share or in many cases, we do not care if our bit is done at all. The Red knows he must work hard and carefully if he is to achieve his goal. He is clever. He works on our emotions, fears, and prejudices. He toys with us as a baby plays with a rattle. Often we become a marionette to be moved at his wish. And what does he do? He sits back and laughs at our stupidity!

Intelligent people should not waste time fearing the word Red.

In moments of haste and fear, wrong strategy is often used by our leaders. Their mistakes are paid for in loss of prestige and even in loss of life. Instead of fearing the Reds, we should learn how to overcome their tactics of aggression. Many of the people in communistic territory are not Reds. They do not love their form of government. They are forced to support it. In Russia, for example, only 3,000,000 out of nearly 200,000,000 people are members of the Communist party. The living condition in the average Russian's life is not as terrible as we are led to believe. The worst condition is the fear of death or torture and that is what keeps the Russian in place.

This country and our form of democratic government are not doomed. We must, though, start working right now if we are to halt the Red tide. Each of us must wake up to the fact that the free ride is over. From now on we must make sacrifices to keep our freedom. We might even have to resort to the old fashioned school of thought, which is thinking itself.

## LITTLE THINGS

It's the little things you do  
And the little things you say;  
It's the little things you look  
That have their own winning way.  
It's the little things you feel  
That count; little things you show  
And little things from your eyes—  
That is why I love you so!

Which Type  
Are You???

It happens every year that we find our school infested with a few of those students whose attitude is completely careless and thoughtless toward the activities of the school. Generally, their attitude tends to run the same way toward their studies, too.

Probably most of these persons are set in their ways; they've never volunteered their services for anything; and they see no need in wasting their time studying when it's so easy to copy someone else's work or to make a few "cheat notes." They don't realize that they are using other people as a "crutch" to lean on through school. The "others" can do all the work so that the parasites may read the Ram Page and Rambouillet and receive the full advantages and fun of outside activities, and pass their courses.

It's dubious that any amount of preaching could change the ways and minds of these leeches of human nature, and that is not the idea of this writing. The people we're interested in are those who might like to be asked. We cannot examine your mind and tell whether you are a member of the first or second clan; only you can do that satisfactorily.

This semester it might be advisable for each of you to decide to which group you belong. If you find yourself classed in the latter group, why not talk to someone and express your desire to be a living, acting part of your school instead of wasting time waiting to be "discovered." Your school life will be richer, you'll have more fun, and your rating with fellow students and teachers will climb rapidly.

As we know, March 17, was St. Patrick's Day. In at least three cities in the U. S., Boston, New York City, and San Francisco, the great day for the Irish resembles an official National Holiday. St. Patrick, the man who chased all the snakes out of Ireland, was not an Irishman, but a Roman. He was born in England about 389 A. D., when Britain was a part of the vast Roman Empire and studied Christianity in Gaul (not France). Some declared that, next to Saint Paul the Apostle, he was the greatest missionary.

## The Modern Gettysburg Address—

One score and eighteen years ago our fathers brought forth upon this nation a new tax, conceived in desperation and dedicated to the proposition that all men are fair game.

Now we are engaged in a great mass of calculations testing whether that taxpayers or any taxpayer so confused and so impoverished can long endure. We are met on Form 1040. We have come to dedicate a large portion of our income to a final resting place with those men who here spend their lives that they may spend our money.

It is altogether anguish and torture that we should do this. But in the legal sense we cannot evade, we cannot cheat, we cannot underestimate this tax. The collectors, clever and sly, who compute here, have gone beyond our power to add and subtract.

Our creditors will little note nor long remember what we pay here but the Bureau of Internal Revenue can never forget what we report here, it is rather for us to be dedicated to the great task remaining before us—that from these vanished followers we take increased devotion to the few remaining, that we here highly resolve that next year will not find us in a higher income tax bracket.

—Anonymous

CARR HALL PLANS  
BIRTHDAY PARTY

Carr Hall is planning a birthday party for the girls who became a year older during February and also for those who will soon age a year in March. The committee for the get-together is as follows: Peggy Cook, Nita Dillard, Jane Gould, Betty Bengel, and Marinell Roach.

The girls are also planning an entertainment evening for Mayer Hall which will be held in the Ram Room. Mrs. Carter and Mrs. Bludworth are acting as advisors for the Carr Hall girls.

## STUDENTS GIVE REASONS FOR CHEATING\*

## ARE YOU HONEST?

The daily scandals about Internal Revenue Bureau tax frauds and RFC mink coats are causing many thoughtful citizens to wonder whether a real decline in moral standards isn't now occurring in America. Can it be true, as Shakespeare put it, that, "To be honest, as the world goes, is to be a man picked out of ten thousand"?

The West Point cribbing explosion and the basketball bribes at Bradley, Long Island, and other universities have brought worried, closed-door conferences among educators. Is the honesty virus also infecting our young people everywhere? Guidance researchers have numerous disquieting facts and figures on this question that deserve far closer study than they have so far received. Here are some of them:

## Beware The Ides Of March

Walking along the street, a man was attracted by screams coming from a house. He ran in to investigate and found a frantic mother whose small son had swallowed a nickel. Seizing the boy by the heels, he held him up, gave him a few shakes, and the coin dropped out on the floor. The grateful mother was lost in admiration. "You certainly knew how to get it out of him," she said. "Are you a doctor?" "No, Madam," he replied. "I'm from the Internal Revenue Department."

HOMESICK IS  
REAL AT SAC

Illness claims all, and is partial to none. There seems to be no way of knowing who will be next to be afflicted with what ailment. So, we do not predict but report.

Joe Roy Collins is home at this writing with a case of the chicken pox which he contracted the day he went home, Thursday, March 6. The Ram Page staff hopes Joe has no enemies he will wish the pesky sickness on, but will be kind and considerate to keep them to himself. Get well soon Joe, you're missed on the campus.

One girl we can envy is Carlene Peoples. She enjoyed a week's vacation as a result of an infected throat. We envy the vacation, Carlene, not the infected throat.

## INQUIRING REPORTER

TO SMOKE OR NOT TO SMOKE;  
THAT IS THE QUESTION

By JANE GOULD

By Jane Gould

A debate of some concern to many students has been under way for some time recently and the Inquiring Reporter has obtained a few opinions on the matter. The question of the week was met with much disapproval on one hand, and on the other with obvious unconcern. Actually it is a question that should bring awareness to each student who attends classes here.

The question: "WHAT DO YOU THINK OF SMOKING IN THE CLASS ROOMS?"

Ronald Williams—"I don't like the idea. There are lots of people who don't like cigarette smoke."

Stan Field—"I wish we could."

Joyce Matthews—"I think it's up to the people themselves."

A. W. Andrea—"I'm definitely not in favor of it—because one can't concentrate as well with smoke in his eyes."

Ann Cunningham—"It might be a good idea. It would depend on the different types of classes."

Bill Wright—"I don't like it."

Myrna Loy Ray—"I won't say

anything for or against it, it sure does get stuffy in classrooms."

Bonita Heatherington—seems to me that those who want to smoke have plenty of time between classes."

C. C. Clark—"I would agree of it because smoking has a tendency to release nervous tension."

Emily Heye—"I don't think it's necessary. If a person waits an hour for a cigarette, it's pretty bad off."

George Bookout—"I don't like it—people who don't like it won't like it either."

Shirley Snider—"I think it shows a lack of respect for low students."

Jimmy Cox—"It gives me fever."

TIPS FOR SUCCESS—

# Learn Your Department Walk From The Texas Ranger

## Little Theater Doing New Trio Of Plays

SAC Little Theatre members are in the midst of hectic activity. Three one-act plays besides the contest play, "Mooncalf Mugford," are in rehearsal.

"Dark Lighthouse," as its name suggests has its setting in the interior of a lighthouse on a stormy coast. Morgan played by Jerry Rape; and Keel, Tommy Kirkpatrick, are lighthouse keepers who are left alone when the air boss is taken ashore for an appendectomy.

"That's My Baby," a hilarious little comedy of errors, takes place in a boarding house. Joe Hall portrays a struggling young artist, Dick Summers. Billie Arledge plays his fiancée, Elizabeth Carlson. Other characters include Maxine Colven, the landlady; LaJuan Lawson, the baby's mother; and Don Fields, a police officer.

"Playing with a Play" is a well written bit of nonsense, satirizing playwrights. The cast includes: Laverle Hays, a playwright-director, Miss Suds; Don Tonne, a student playwright, Mr. Wouldby; Donald Williams, a father, Mr. Ivory; Jack Castello, the hero, Mr. Ruler; Emily Heye, the heroine, Miss Ivory; Bob Cole, the villain, Mr. Inkwell; and Jerrie Johnson, the vampire, Mrs. Pencil.

We are advised to pay our taxes "with a smile." Gosh, that would be easy, but the tax collector demands cash!

## Mrs. Bludworth Is Speaker At Teacher's Meet

Mrs. Rosa Bludworth of SAC was one the teachers taking part in the program of the District Class Room Teachers Meeting held in San Angelo last week. She discussed college problems in English Friday afternoon in the English division.

### LIFE LOYALTIES

I am not bound to win, but I am bound to be true.  
I am not bound to succeed, but I am bound to live by the light that I have.  
I must stand with anybody that stands right, stand with him while he is right.  
And part with him when he goes wrong.—Abraham Lincoln

### "Auto-Graph" Could Replace Shorthand Teachers In Future

"Will shorthand teachers be replaced by a '45' record in the future?" No doubt that's what Mr. Masterson is wondering. The reason is that the new machine that has been added to the methods employed in his classes.

The Auto-Graph is a recording machine equipped with a small earphone and is stopped or started by kicking one of two pedals. Mr. Masterson records several letters and during practice periods, the shorthand students play them back.

Ah, this age of gadgets!

## Books Presented To SAC Library

Five new books were presented to the library last week, Mrs. Frances Carter announced.  
Mr. and Mrs. Mart Findlater presented My Cousin Rachel by Daphne du Maurier in memory of Mrs. Norman B. Taylor; the Findlaters and Captain and Mrs. David Gunn presented Horses, edited by Bryan Holme in memory of Sidney Sanderson Millsbaugh, Jr., and Barbaraas by Par Lagerkvist in memory of Mrs. Emma Schley. Mr. and Mrs. Mart Findlater presented Showboats The History of an American Institution by Philip Graham in memory of Mrs. William Anson. Capt. and Mrs. David Gunn in memory of Mrs. Norman B. Taylor presented Forty Famous Composers, edited by Henry Thomas and Dana Lee Thomas.

## Noted Educator Dies In Florida

Dr. W. W. Charters, well known educator and close friend of Mr. Harold Barnes died last week from a heart attack while in Florida.  
Dr. Charters and his wife visited Mr. and Mrs. Harold Barnes the earlier part of the month and Dr. Charters was greatly impressed by the SAC campus.  
Dr. and Mrs. Charters and Mr. and Mrs. Harold Barnes met while they all were students at the University of Chicago and have been friends ever since. Dr. Charters was formerly associated with Stephens College in Missouri and during the war he was director of the Bureau of War Manpower Training.

### ABEL BECOMES DELEGATE

Dean Abel has been elected to the Council of Delegates for the Mid-Texas State Teachers Convention comprising 22 counties of the mid-western section of Texas.  
This council acts as a board of directors for the schools in these 22 counties.  
A meeting of the group was held last Friday night at the civic auditorium.  
The more you think you know, the more you'd better listen.

Nobody ever had an unkind thought about his fellow citizen when he was laughing hard.

The most comfortable place to live is just within your income.

Now someone had advanced the theory that square meals make people round.

Idle rumors are apt to get busy sooner or later.

It is one thing to itch for something but quite another thing to scratch for it.

Many a guy spends sleepless nights counting sheep because of a little lamb.

When the good Lord made the world, He made the canyons, the mountains, the mesas, the plateaus; He made the desert, the forest, the sea. Then he looked around, saw that the job wasn't quite finished, so as the final touch He made the birds and the flowers. What He created was a masterpiece. Banish, if you please, all the musical instruments ever made. We would still not be lacking in song as long as birds exist.

### ANOTHER DAY

"Honey, jes' lissen! Don't cry an' fret; der's a whol' day t'morrow that ain't been teched yet! Mought be a sunrise mak' yo' heart shout—Look jes' like heaven turned inside out!

Mought be a-walkin' 'long o' de road, fin' a gol' nugget, big as a toad! Mought turn a corner mos' eny place—bes' friend a-smilin' right in yo' face!

Heart o'mine, lissen! Why will yo' fret? Der's a whol' day t'morrow that ain't been teched yet!"  
—Anna B. Bryant

### LASTING SATISFACTION

There is no truer and more abiding happiness than the knowledge that one is free to go on doing, day after day, the best work one can do, in the kind one likes best, and this work is absorbed by a steady market and thus supports one's own life. Perfect freedom is reserved for the man who lives by his own work and in that work does what he wants to do.  
—R. G. Collingswood

## Assembly Honors Phi Theta Kappa

Assembly Friday was the scene of the introduction of the new Phi Theta Kappa members. Frank Strickland, president, presided; Dean Able made the address, and Donn Rice gave the response. Dr. Wildenthal, Mrs. Bludworth and Dr. Bogue, secretary of the National Junior College Association, were honored guests.  
The new members were called to the stage and introduced. The program was brought to a close by the singing of the Phi Theta Kappa song by Shirley Snider and Joan Park.

### IS THERE A STYLE?

"For heavens sakes that's much too short, Wynta!"

The grin on Mozelle's face was one of earnestness, and Wynta's expression was one of exasperation, but she slowly unpinned the hems in the dress riding pants and was prepared to start over and repin the pants again. She had lost track of the times they had gone through the procedure, fully convinced that there never would be a satisfactory length.

The fact that all of this was taking place in the Carr Hall living room did not seem to faze anyone. People came in and watched the "goings-ons." Some gave unhelpful advice while others chuckled and passed by.

"After all," Mozelle continued, "these pants, or any dress pants, have to be a stylish length or they just won't do."

Just as Wynta was about to ask how the new length fitted, the phone rang and Mozelle "took-off" to answer it. She talked for a few minutes. Returning, Mozelle said, "These are fine; gotta go now. Thanks Wynta!"

I've never been dated, I've never been kissed. They said if I waited No man could resist The lure of a pure, innocent Miss. (The trouble is—I'm fifty.)

## Accountants Hand In Practice Set

Members of Accounting breathed a sigh of relief Tuesday March 11, when they handed in completed practice sets in to Jones for the first time this semester. This was the effect of a week and a half of steady work.  
For those who do not take accounting and are not familiar with the principles of the subject, the practice set is a group of business transactions for a certain type of enterprise for a whole month. The student must take these transactions and record them in "books" of the business. Upon completing this, totals must be calculated and posted to various "books". Then these ledgers, they are called, must be summarized in long, detailed forms.

The entire set may require a total of anywhere from 20 to 40 hours, depending upon the aptitude of the student, but this time, Jones, the instructor, made it mandatory for the practice set to be in ink, making it harder and more tedious.

A. C. Adams and M. R. Parker have been on the lips of every counting student in the class cause they were the partners in the business that possessed the most of books. Complications arose every hand before finally achieving completion, but each student looking forward to a time about a month from now when the partnership of Adams and Parker decided to incorporate their firm and swing into "big business."

## Prexy's Home Board Topic

The building of a president's home and the problem of saving the trees and shrubs on the campus during the drouth, were points discussed by the college trustees last Wednesday night.

Plans to extend the testing and counseling program to 1100 high school seniors at an estimated date than last year was presented to the trustees.

Board member W. D. Taylor reported on plans for the president's home on the campus. The home will probably cost more than the \$20,000 available.

President of the board, Per Henderson, introduced the problem of saving the trees and shrubs. It was the opinion of the trustees that hiring private contractors to haul water would be too costly. The county is to be contacted for possible help in making a storage tank available. The board feels that the releasing of water slowly on the trees proves to be effective.

Approval was granted for a summer school of nine weeks duration.

### MRS. CARTER SPEAKS AT CONCHO P-TA

Mrs. Carter took part on Concho Parent-Teacher program Monday afternoon. She discussed the value of college education.
